PROJECT PAGE · TEMPLATE REFERENCE

ECEC Project Page — Block Template Reference

Everything you need to prepare copy and images for a new project page. Seven block types, consistent across all projects, edited inside WordPress admin.

For

ECEC Engineering Consultants

Applies to

All single-project pages (portfolio-item CPT)

Version

v1 · 2026-04-23

Page anatomy

Every project page is composed of a **hero section** (fixed, driven by the featured image + title) and a **body** made up of content blocks arranged in order. An **info sidebar** on the right reads from the existing portfolio info meta (Client, Contractor, Services Provided, Completion Date). Each block is optional — use what the story needs.

HERO

01 · Intro text

02 · Image + Text split

03 · Full-width image (3:1)

04 · Image pair (2 columns)

05 · Project data (facts list)

06 · Pull quote

07 · Gallery (2 or 3 columns)

HOW IT'S BUILT

1. Every block is **optional**. A short project may use 2-3 blocks; a flagship project 8+.
2. Block order is controlled from the **ECEC Content Blocks** editor in the project's admin screen.
3. The **info sidebar** is populated from "Portfolio Settings → Info" — unchanged from the existing admin pattern.
4. The **hero** is always the featured image + the page title — not a block.
5. Images are **cropped automatically** to fit each block's aspect ratio (cover-fit, centred).

> **Tip:** prepare all images as JPG. Use PNG only when transparency is needed (rarely).

00 Hero

The first thing a visitor sees. Full-width, takes 60% of the viewport height. Built from the project's featured image + title.

PREVIEW

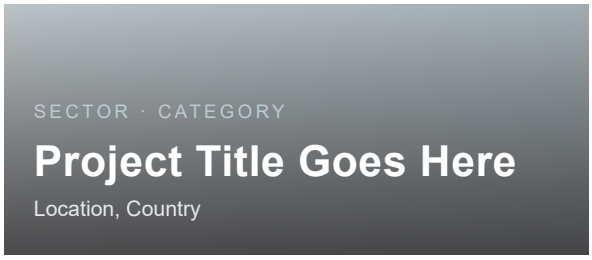

IMAGE SPEC

Min size	**2400 × 1600 px**
Aspect ratio	Any (cropped to ~60vh)
Format	JPG (≤ 800 KB)
Subject	Landscape, wide shot, hero-worthy
Avoid	Text overlays, tall portraits

EDITABLE FIELDS

`Featured image` `Title` `Portfolio Category` `Portfolio Location`

01 Text Paragraph

Body copy — intro prose, a narrative paragraph between images, or a closing reflection. Text is justified.

PREVIEW

The engineering brief required systems that respected the dramatic desert terrain while delivering a hospitality experience at the top of the luxury scale. Every decision from MEP routing to thermal comfort was taken in response to the site, not imposed upon it. Guests experience quiet infrastructure; operators experience disciplined redundancy.

CONTENT SPEC

Text length	~80–200 words per block
Alignment	Justified, no hyphenation
Column width	Max 920 px (readable measure)
Formatting	Plain paragraphs · **bold**, *italic* OK

EDITABLE FIELDS

`body (rich text)`

BEST USED FOR

Introduction, transitions between visual blocks, closing statement.

02 Image + Text Split

A two-column row: one half image, one half text. Image can be on the left or right. The signature "magazine" block — use it for the most important narrative beats.

PREVIEW

VISION & CONTEXT

A landmark shaped by its landscape

Desert Rock Resort was conceived as a destination that disappears into its canyon setting. Engineering systems were designed to stay invisible while delivering hospitality-grade reliability.

IMAGE SPEC

Min size	**1200 × 900 px**
Aspect ratio	4 : 3 (cover-fit)
Format	JPG

CONTENT SPEC

Overline	2–4 words, uppercase
Heading	4–10 words
Body	~50–120 words
Image side	Left (default) or Right

EDITABLE FIELDS

`image` `overline` `heading` `body` `image_side`

03 Full-Width Image

A banner-style image that spans the content width. Locked to a 3:1 rectangle — wide, cinematic. Image is cropped automatically to fit.

PREVIEW

Optional caption below the image

IMAGE SPEC

Min size	**2400 × 800 px**
Aspect ratio	**3 : 1 (fixed, cover-fit)**
Max rendered width	1200 px
Format	JPG (≤ 700 KB)
Subject	Landscape, horizon-rich, wide shot

EDITABLE FIELDS

`image` `caption (optional)`

BEST USED FOR

A dramatic site shot, context view, or completed-building hero. One per page recommended.

04 Image Pair

Two images side-by-side in a 2-column row. Each image has its own optional caption. Great for before/after, exterior/interior, plan/elevation pairs.

PREVIEW

Exterior · valley approach Interior · guest suite

IMAGE SPEC (EACH OF 2)

Min size	**1200 × 900 px**
Aspect ratio	4 : 3 (cover-fit)
Format	JPG
Best when	Both images share visual weight (similar horizons, lighting)

EDITABLE FIELDS

`image_left` `image_right`
`caption_left` `caption_right`

05 Project Data

A labeled facts block for the hard numbers: GFA, MEP scope, completion date, client, engineering disciplines. Rendered as a 2-column list with a top/bottom rule.

PREVIEW

PROJECT DATA

At a glance

CLIENT	LOCATION
Red Sea Global	Saudi Arabia
SCOPE	**COMPLETION**
MEP · ICT · Sustainability	2024

CONTENT SPEC

Rows	Typically 4–8
Label	Short, uppercase · 1–3 words
Value	Concise · units included (e.g. "56,000 sqm")

EDITABLE FIELDS

`overline` `heading`

`rows (label + value)`

06 Pull Quote

A short, italicised statement — a design philosophy, client testimonial, or project-director reflection. Sits inside the body flow as visual punctuation.

PREVIEW

> *Good engineering is invisible to the guest and indispensable to the operator. On Desert Rock, both happened at the same time.*
>
> PROJECT DIRECTOR, ECEC

CONTENT SPEC

Quote length	10–40 words
Attribution	Optional · name + role or organisation

EDITABLE FIELDS

`quote` `attribution`

BEST USED FOR

One per page max — keep it rare so it feels earned.

07 Gallery

A grid of additional images at the end of the page — detail shots, on-site photography, completed-building exteriors. 2- or 3-column layout.

PREVIEW · 3 COLUMNS

IMAGE SPEC (PER TILE)

Min size	**800 × 600 px**
Aspect ratio	4 : 3 (cover-fit)
Format	JPG
How many	3, 6, or 9 (fills the grid evenly)

EDITABLE FIELDS

`images (multi-select)`

`columns (2 or 3)`

BEST USED FOR

End-of-page visual summary. Don't dilute — curate 6–9 strong images over 20 average ones.

Quick reference

All block image requirements at a glance. Every image is cover-cropped to fit the block's aspect ratio — centre the subject in your source image.

BLOCK	MIN IMAGE SIZE	ASPECT RATIO	QTY PER BLOCK	BEST FOR
Hero	2400 × 1600	Any (crops to 60vh)	1 (featured image)	Landscape / wide shot
Text Paragraph	—	—	No image	Body prose · 80–200 words
Image + Text Split	1200 × 900	4 : 3	1	Narrative beats · key story sections
Full-Width Image	2400 × 800	3 : 1	1	Banner · context shot
Image Pair	1200 × 900 (each)	4 : 3	2	Before/after · exterior/interior
Project Data	—	—	No image	Facts · GFA, client, scope, completion
Pull Quote	—	—	No image	Design philosophy · testimonial
Gallery	800 × 600 (each)	4 : 3	3, 6, or 9	End-of-page visual summary

Info sidebar (right column): Client · Contractor · Services Provided · Completion Date. Edited from the project's *Portfolio Settings → Info* tab — not part of the block system.
